

Infection Protection Screens for the Public Transport Sector

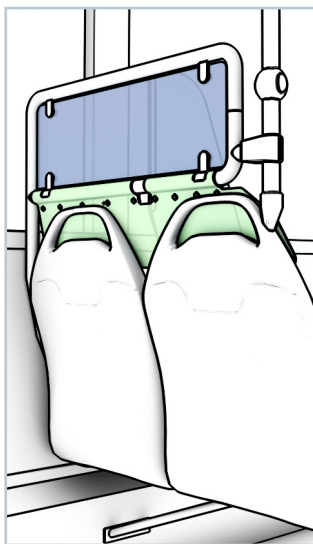

At this difficult time the relaxing of lockdown rules means more, not less responsibility for us all. With this infection protection upgrade you can assure your passengers and drivers that their health is your priority.

■ Application example: passenger saloon

■ Application example: driver protection screen

■ Seat side view

Features of the HJS ESG safety module:

- ✓ Protection from bacteria/virus transmission via sneezing or coughing
- ✓ Self supporting robust support structure
- ✓ High stability modular construction/connection system
- ✓ Scratch resistant, fire resistant and vandalism proof
- ✓ Can be used as an advertising medium
- ✓ Available in 4 versions which can be adapted to suit many seat variants
